SUBJECT INDEX TO VOLUME 35

(CPC) = Clinicopathologic Conference; (CSC) = Combined Staff Clinic; (E) = Editorial

Abscess, brain, role of anaerobes in, 682
Acid-base regulation in spontaneous lactic acidosis, 781
Acidosis
  metabolic
    classification of, 781
    in Asiatic cholera, 58
  spontaneous lactic, acid-base regulation in, 781
ACTH and α-MSH, structures of (E), 721
ACTH-like compound produced by oat cell carcinoma of lung, 427
Adenoma, differentiation of carcinoma from, in Cushing's syndrome, 374
Adenomatosis, endocrine, and peptic ulcer, 205
ADH secretion, malignant tumor and porphyria (CPC), 546
Adrenal cortical hormones in chronic hepatitis, 310
Adrenal cortical hyperfunction and bronchogenic carcinoma, 427
Adrenal steroid therapy in polymyositis, 646
Adrenocortical carcinoma, o,p,'DDD in, 374
Adynamia episodica hereditaria (hyperkalemic paralysis), 749
Alcohol ingestion, serum lactescence after, 794
Alcoholic hyperlipemia, mechanism and studies of, 794
Alcoholics
  bromsulfalein retention in, 323
  serum alkaline phosphatase levels in, 323
  significance of hyperphosphatasemia in, 323
Aldosterone secretion and malignant hypertension, 251
Alkali in treatment of adult Fanconi syndrome associated with nephrolithiasis, 487
Alkaline phosphatase levels
  in alcoholics with liver disease, 323
  in neoplastic and non-neoplastic diseases, 530
Alkalinization in hyperkalemic paralysis, 749
Alkylating agents, response of idiopathic autoimmune hemolytic anemia to, 130
Alpha$_{2S}$ globulin turnover, I^{131} labeling in estimation of, 708
Ammonia
  distribution in hepatic failure, 350
  intoxication in hepatic coma, 804
Amyloidosis (CPC), 90
Anaerobic infection of brain, 682
Analgesics and pyelonephritis, 481
Anemia
  due to metastases of malignant melanoma to jejunum (CPC), 546
  hemolytic
    following repair of atrioventricular canal defects, 467
    hereditary elliptocytosis with, 455
Anemia
  idiopathic autoimmune hemolytic, response to alkylating agents, 130
Aneurysm, sinus of Valsalva, with Ehlers-Danlos syndrome simulating rheumatic heart disease, 715
Angiocardiography in idiopathic myocardial hypertrophy, 7
Angiography in diagnosis of syndrome of anomalous pulmonary venous drainage with enlarged left atrium, 577
Antibody response in macroglobulinemia, 698
Anticoagulant
  circulating, in disseminated lupus erythematosus, 813
  in hemophilia, 404
Antidiuretic hormone, inappropriate secretion of, and hyponatremia (E), 293
Aortic insufficiency with Ehlers-Danlos syndrome simulating rheumatic heart disease, 715
Aortic stenosis
  see Stenosis
Arbo virus serology, 673
Arteries, major pulmonary, chronic thrombotic obstruction of, 269
Arteriolar nephrosclerosis (CPC), 90
Arterioles, amyloid and lipid deposits in (CPC), 90
Arteritis and glomerulitis of kidneys (CPC), 384
Artery, pulmonary, congenital stenosis of, classification and postmortem findings, 512
Arthritis
  and heart disease, 145
  Jaccoud's, valvular and myocardial disease in, 145
  rheumatoid
    gamma globulin concentration in, 182
    latex agglutination reactions in, 182
    latex fixation test results in aged persons, 175
    sensitized sheep cell test results in aged persons 175
Arthropod-borne virus disease in Florida, 673
Asiatic cholera, dehydration in, 58
Atelectasis, surface tension of lung in, 31
Atrial appendage, left, herniation of, 560
Atrioventricular canal defects, surgical repair followed by severe hemolytic anemia, 467
Atrium
  enlarged left, and pulmonary venous drainage, 577
  left, Starr-Edwards prosthesis for hypertrophy and dilatation of (CPC), 842

Bicarbonate
  administration in hyperkalemic paralysis, 749
  role in Asiatic cholera, 58
Biopsies, repeated liver, in hemochromatosis, 434

Biopsy
analysis, muscle, value in diagnosis and management of ill patients, 768
hook-needle, of pleura, pericardium, peritoneum and synovium, 189
of muscle tissue in electrolyte disturbances, 768
serial renal, in acute glomerulonephritis, 213
Blood
cerebrospinal fluid barrier, distribution of ammonia in hepatic failure, 350
proteins, changes during myocardial infarction, 165
Bone, pulmonary, hepatic, renal and myocardial disease (CPC), 90
Bovine insulin, immunologic studies in diabetic subject resistant to, 411
Brain, anaerobic infection treated with penicillin and tetracycline, 682
Bromsulfalein retention in alcoholics with liver disease, 323

Calcium
levels in neoplastic and non-neoplastic diseases, 530
therapy in hyperkalemic paralysis, 749
Calories don't count—if you don't use them (E), 143
Cancer of lung, nonresectable, chemotherapy and radiotherapy in, 363
Carbon dioxide inhalation, responses in hyperkalemic paralysis, 749
Carcinoma
adrenocortical, o,p,'DDD in, 374
bronchogenic
and adrenal cortical hyperfunction, 427
and hyponatremia associated with renal excretion of antidiuretic material, 257
differentiation of adenoma from, in Cushing's syndrome, 374
hepatocellular, and erythrocytosis, 439
of lung, oat cell, production of ACTH-like compound by, 427
Cardiac involvement in rheumatoid arthritis, 145
Cardiac surgery, hemolysis after, 467
Cardiogenic shock, prolonged, 396
Cardiomegaly, endomyocardial fibrosis with, 569
Cardiovascular lesions of Mimeae organisms, 241
Catheterization
left heart, in syndrome of anomalous pulmonary venous drainage with enlarged left atrium reflecting mitral stenosis, 577
right heart, in Ehlers-Danlos syndrome, 715
Central nervous system histoplasmosis
see Histoplasmosis of central nervous system
Chemotherapy and radiotherapy, comparative trial in nonresectable lung cancer, 363
Chest tomograms in obstructive pulmonary disease, 20
Cholera
Asiatic, dehydration in, 58
fecal loss of bicarbonate resulting in metabolic acidosis in, 58
Chromosomal pattern in mongolism, 135
Cirrhosis, postnecrotic (CPC), 90
Coma, hepatic, ammonia intoxication in, 804
Clinicopathologic conferences
Complications of open heart surgery, 842
Fulminating liver disease in pregnant woman at term, 231
Malignant tumor, porphyria and inappropriate ADH secretion, 546
Pulmonary, hepatic, renal, myocardial and bone disease: a new pathologic entity?, 90
Wegener's granulomatosis, 384
Conduction defect, intraventricular, in diabetic ketoacidosis, 123
Congenital partial absence of pericardium with herniation of left atrial appendage, 560
Congenital stenosis of pulmonary artery branches, classification and postmortem findings, 512
Corticotropin, extra-adrenal actions of (E), 721
Cushing's syndrome, differentiation of carcinoma from adenoma in, 374

Dehydration
in Asiatic cholera, 58
value of muscle biopsy in diagnosis and management, 768
Dextran cell-latex fixation test in myocardial infarction, 163
Diabetes, insulin resistance in, 411
Diet, ten-year follow-up of effect on acute infectious hepatitis, 299
Diffusing capacity in obstructive pulmonary disease, 20
Dilantin-induced serum sickness, 418
Diuresis, urea and mannitol, water reabsorption, urea concentration and rate of urine flow during, 727
Dystrophies, pathology of, 632

Edema
hereditary angioneurotic, biochemical abnormality in, 37
symptom of erythropoietic protoporphyria, 450
Editorials
Calories don't count—if you don't use them, 143
Forecasts in medical education, 1
Hyponatremia and inappropriate secretion of antidiuretic hormone, 293
Introduction to symposium on muscle, 585
Peptide hormones, some new developments and their clinical implications, 721
Unified concept and critical review of pulmonary hyaline membrane formation, 443
Education, medical, forecasts in (E), 1
Effusion fluid, electrolyte levels in, in neoplastic and non-neoplastic diseases, 530
Effusions, hook-needle biopsy in evaluation of, 189
Ehlers-Danlos syndrome with sinus of Valsalva aneurysm and aortic insufficiency simulating rheumatic heart disease, 715

Electrolytes
changes after potassium chloride administration in hyperkalemic paralysis, 749
disturbances in, muscle biopsy in, 768
Electron microscope studies of skeletal muscle fiber, 589
Electrophoretic pattern in myocardial infarction, 163
Elliptocytosis, hereditary, splenectomy in, 455
Emphysema, obstructive pulmonary, hypoxemia in, 20
Encephalitis in Florida, 673
Endocardial cushion defects, surgical repair followed by intravascular hemolysis, 467
Endocardium, fibrosis with myocardial involvement and cardiomegaly, 569
Endocarditis, mimeae, 241
Endocrine adenomatosis and peptic ulcer, 205
Endomyocardial fibrosis, diffuse, 569
Erythema, symptom of erythropoietic protoporphyria, 450
Erythrocytosis and hepatocellular carcinoma, 439
C'1-esterase, serum inhibitor of, absence in hereditary angioneurotic edema, 37

Factor X and factor V, reaction between inhibited by circulating anticoagulant, 813
Fanconi syndrome
adult, treated with oral phosphate supplements and alkali, 487
associated with nephrolithiasis, 487
Fever and chills in chronic meningococcemia, 103
Fibrosis, diffuse endomyocardial, 569
Fungus disease, brief account of Rhinosporidiosis, 566

Gamma globulin, components in macroglobulinemia and multiple myeloma, 698
Gamma$_{2A}$ globulin metabolism in secondary hypogammaglobulinemia, 708
Genetic heterogeneity and muscle disease, 622
Genetic hypothesis in endocrine adenomatosis and peptic ulcer, 205
Genetics of muscle, 622
Globulins
abnormal, in myocardial infarction, 163
resembling rheumatoid factor in serum of aged, 175
Glomeruli, amyloid and lipid deposits in (CPC), 90
Glomerulitis of kidneys (CPC), 384
Glomerulonephritis, acute, natural history and clinical and pathologic findings in, 213
Glucose, reaction to therapy in hyperkalemic paralysis, 749
Glutamine metabolism, abnormality in primary gout, 820
Glycine-N^{15} incorporation in gouty and nongouty subjects, 820
Glycogen storage disease, summary of, 661
Glycogenoses affecting muscle and hypo- and hyperkalemic periodic paralysis, 661
Golgi apparatus in skeletal muscle fibers, 589
Gout, primary, abnormality of glutamine metabolism in, 820
Granulomatosis, Wegener's (CPC), 384

Headache, manifestation of anaerobic infection of brain, 682
Heart
anomalous pulmonary venous drainage with enlarged left atrium, 577
atrioventricular canal defects, 467
disease
and arthritis, 145
rheumatic (CPC), 842
rheumatic, Ehlers-Danlos syndrome with sinus of Valsalva aneurysm and aortic insufficiency simulating, 715
rheumatoid, and rheumatoid arthritis, 145
enlargement associated with endomyocardial fibrosis, 569
failure, congestive, idiopathic myocardial hypertrophy without, 7
herniation of left atrial appendage, 560
right, catheterization in Ehlers-Danlos syndrome, 715
sound, loud fourth, in idiopathic myocardial hypertrophy, 7
surgery, open, complication of (CPC), 842
Hematologic analysis in serum sickness and plasmacytosis, 113
Hematologic findings in giant follicle lymphoma, 832
Hemiplegic patients, technics of rehabilitation, 536
Hemochromatosis, follow-up with repeated phlebotomies and liver biopsies, 434
Hemodynamics in idiopathic myocardial hypertrophy, 7
Hemolysis after cardiac surgery, 467
Hemolytic anemia
see Anemia
Hemophilia, anticoagulant in, 404
Hepatic coma, ammonia intoxication in, 804
Hepatic failure, distribution of ammonia in, 350
Hepatic insufficiency and induced urease immunity, 804
Hepatic, pulmonary, renal, myocardial and bone disease (CPC), 90
Hepatic venography, wedge, clinical usefulness of, 343
Hepatitis
acute, ten-year follow-up of effects of diet and rest, 299
chronic, steroid treatment of, 310
Hepatocellular carcinoma and erythrocytosis, 439
Hereditary elliptocytosis, splenectomy in, 455
Herniation of left atrial appendage, congenital partial absence of pericardium with, 560
Histoplasmoma in central nervous system histoplasmosis, 45
Histoplasmosis of central nervous system, histoplasmoma in, 45
HN_2 in nonresectable lung cancer, 363
Hormone, antidiuretic, and hyponatremia (E), 293
Hormones
adrenal cortical, in treatment of chronic hepatitis, 310
peptide, new developments and clinical implications (E), 721
Hyaline membrane formation, pulmonary, concept and review (E), 443

Hydration, value of muscle biopsy in diagnosis and management, 768
Hyperaldosteronism in malignant hypertension, 251
Hyperkalemic paralysis (adynamia episodica hereditaria), 749
  reactions to glucose, potassium, calcium and alkalinization, 749
Hyperlactatemias, classification of, 781
Hyperlipemia
  alcoholic, its mechanism and studies of, 794
  enzyme activity in, 794
Hyperphosphatasemia, significance in alcoholics with liver disease, 323
Hypertension, malignant and aldosterone secretion, 251
Hypertrophy
  and dilatation of ventricles and left atrium, Starr-Edwards prosthesis for (CPC), 642
  idiopathic myocardial, clinical, hemodynamic and angiocardiographic studies in, 7
Hyperventilation, responses to, in hyperkalemic paralysis, 749
Hypogammaglobulinemia, secondary, $gamma_{ss}$ globulin metabolism in, 708
Hypoglycemia, protracted tolbutamide, 196
Hypomagnesemia as cause of tetany in normocalcemic woman with excessive lactation, 854
Hyponatremia
  and bronchogenic carcinoma, 257
  and inappropriate secretion of antidiuretic hormone (E), 293
Hypoproteinemia, $gamma_{ss}$ globulin metabolism in, 708
Hypoxemia in obstructive pulmonary disease, 20

I^{131} labeling in estimating $alpha_{ss}$ globulin turnover, 708
Idiopathic autoimmune hemolytic anemia
  see Anemia
Idiopathic myocardial hypertrophy
  see Hypertrophy
Immunologic analysis in serum sickness and plasmacytosis, 113
Immunologic studies on insulin resistance, 411
Infection in myeloma and macroglobulinemia, 698
Insulin resistance, immunologic studies on, 411
Itching, symptom of erythropoietic protoporphyria, 450

Jaccoud's arthritis, valvular and myocardial disease in, 145
Jejunum, metastases of malignant melanoma to (CPC), 546
Joint
  deformity, chronic, valvular and myocardial disease in patients with, 145
  disease, latex agglutination reactions of serum and synovial fluid in, 182
  involvement in chronic meningococcemia, 103

Ketoacidosis, diabetic, intraventricular conduction defect and respiratory tract paralysis in, 123
Kidney
  arteritis and glomerulitis of (CPC), 384
  excretion of antidiuretic material associated with hyponatremia and bronchogenic carcinoma, 257
  papillary necrosis of, associated with analgesics, 481

Lactation, excessive, hypomagnesemic tetany due to, 854
Lactescence of serum after alcohol ingestion, 794
Latex agglutination reactions in rheumatoid arthritis and other joint disease, 182
Latex fixation test
  for rheumatoid arthritis, results in aged persons, 175
  in myocardial infarction, 163
Leukemia, lymphatic, $alpha_{ss}$ globulin turnover in, 708
Lipase, lipoprotein, role in alcoholic hyperlipemia, 794
Lipid concentrations in hyperlipemia, 794
Lipid deposits (CPC), 90
Lipoprotein lipase in alcoholic hyperlipemia, 794
Liver
  biopsies, repeated, in hemochromatosis, 434
  disease
    bromsulfalein retention in alcoholics with, 323
    enzyme levels in alcoholics with, 323
    fulminating, in pregnant woman at term (CPC), 231
    significance of hyperphosphatasemia in alcoholics with, 323
Lung
  cancer
    and adrenal cortical hyperfunction, 427
    and hyponatremia associated with antidiuretic hormone excretion, 257
    nonresectable, chemotherapy and radiotherapy in, 363
  normal and atelectatic, surface tension reducing activity in, 31
  oat cell carcinoma of, producing ACTH-like compound, 427
  surface tension of, 31
Lupus erythematosus, circulating anticoagulant in, 813
Lymph node involvement in giant follicle lymphoma, 832
Lymphoma, giant follicle, clinicopathologic review with emphasis on prognosis, 832

Macroglobulinemia, infection in, 698
Mannitol diuresis, water reabsorption, urea concentration and urine flow rate during, 727
Medical education, forecasts in (E), 1
Melanoma, malignant (CPC), 546
Membrane potential, resting, 611
Meningococcemia, chronic, 103
Metamorphosis, fatty, in pregnancy (CPC), 231
Mimeae endocarditis, 241
Mitochondria (sarcosomes), 589
Mitral stenosis

Mongolism, chromosomal pattern in, 135

Mosaic pleiotropism and inherited multiple tumors, 205
α-MSH and ACTH, structures of (E), 721
Murmurs, ejection systolic, in idiopathic myocardial hypertrophy, 7
Muscle
  action potential, 611
  biopsy analysis, value in diagnosis and management of ill patients, 768
  cell and its functional architecture, 606
  disease and genetic heterogeneity, 622
  fiber
    biochemical activities of, 606
    skeletal, electron microscopic studies of, 589
  genetics and diseases of, 622
  glycogenoses affecting, and hypo- and hyperkalemic periodic paralysis, 661
  phosphorylase deficiency, 622
  skeletal
    defect in metabolism in exertional idiopathic paroxysmal myoglobinuria, 283
    glycogenoses affecting, 661
    inherited diseases of, 622
  symposium, 586–672
  tissue
    estimation of water and potassium content by biopsy, 768
    variations in muscular dystrophy, 632
Muscular dystrophy, 622
  classification of, 632
Myeloma, multiple, infection, antibody response and gamma globulin components in, 698
Myocardial disease (CPC), 90
  occurrence in patients with chronic joint deformity, 145
Myocardial hypertrophy, idiopathic
  see Hypertrophy
Myocardial infarction
  abnormal globulins in, 163
  changes in blood proteins during, 163
  role of prolonged therapy with reserpine-like drug in cardiogenic shock and, 396
Myocardium and endocardium, fibrosis with cardiomegaly, 569
Myoglobin, inherited variation of, 622
Myoglobinuria
  exertional idiopathic paroxysmal, defect in skeletal muscle metabolism in, 283
  paroxysmal, 622
Myopathies, metabolic, 661
Myotonias, 622

Necrosis
  acute tubular, with focal fatty degeneration of proximal renal tubules (CPC), 231
  renal papillary, 481
Needle biopsy in evaluation of problematic effusions, 189
Negro subjects, increased incidence of sarcoidosis in, 67
Nephritis, hereditary, report of a kindred, 737
Nephrolithiasis associated with adult Fanconi syndrome, 487
Nephrosclerosis, arteriolar (CPC), 90
